

23 European Symposium On Computer Aided Process Engineering: A Comprehensive Guide to Process Engineering Advances

The 23 European Symposium On Computer Aided Process Engineering (ESCAPE 23) is a leading international conference that brings together experts from academia, industry, and research institutions to discuss the latest advancements in computer aided process engineering (CAPE).

23 European Symposium on Computer Aided Process Engineering: Framework to to Generate Engineering Standard for Plant Maintenance (Computer Aided Chemical Engineering Book 32)

ESCAPE 23 will be held in Toulouse, France, from September 20-23, 2023. The symposium will feature a wide range of technical sessions, keynote speakers, and workshops on the latest topics in CAPE, including:

- Process simulation and optimization

- Process control
- Process safety
- Process design
- Process intensification
- Product and process design
- Energy efficiency
- Sustainability

ESCAPE 23 will also feature a number of special events, including a welcome reception, a conference dinner, and a technical exhibition. The symposium is an excellent opportunity to network with leading experts in the field of CAPE and to learn about the latest developments in this rapidly growing field.

Keynote Speakers

The keynote speakers at ESCAPE 23 will be:

- **Professor Ignacio E. Grossmann**, Carnegie Mellon University, USA
- **Professor Lorenz T. Biegler**, Carnegie Mellon University, USA
- **Professor Andrzej W. Nienow**, University of Birmingham, UK
- **Professor Marie-Pierre Belleville**, Université de Toulouse, France
- **Professor Stefan Krämer**, RWTH Aachen University, Germany

Technical Sessions

The technical sessions at ESCAPE 23 will cover a wide range of topics in CAPE, including:

- Process simulation and optimization
- Process control
- Process safety
- Process design
- Process intensification
- Product and process design
- Energy efficiency
- Sustainability

The technical sessions will be organized into the following tracks:

- **Track 1: Process Simulation and Optimization**
- **Track 2: Process Control**
- **Track 3: Process Safety**
- **Track 4: Process Design**
- **Track 5: Process Intensification**
- **Track 6: Product and Process Design**
- **Track 7: Energy Efficiency**
- **Track 8: Sustainability**

Workshops

In addition to the technical sessions, ESCAPE 23 will also feature a number of workshops on the latest topics in CAPE. The workshops will be held on September 19, 2023, the day before the symposium begins.

The workshops will cover the following topics:

- **Workshop 1: Process Simulation and Optimization**
- **Workshop 2: Process Control**
- **Workshop 3: Process Safety**
- **Workshop 4: Process Design**
- **Workshop 5: Process Intensification**
- **Workshop 6: Product and Process Design**
- **Workshop 7: Energy Efficiency**
- **Workshop 8: Sustainability**

Registration

Registration for ESCAPE 23 is now open. The early bird registration deadline is June 30, 2023. The regular registration deadline is August 31, 2023.

To register for ESCAPE 23, please visit the symposium website at <https://www.escape23.org/>.

Accommodation

A block of rooms has been reserved at the following hotels for ESCAPE 23 attendees:

- **Novotel Toulouse Centre Wilson**
- **Mercure Toulouse Centre Saint-Georges**
- **Ibis Toulouse Centre Capitole**

To book a room at one of these hotels, please visit the symposium website at <https://www.escape23.org/>.

Travel

Toulouse is easily accessible by air, rail, and road. The Toulouse-Blagnac Airport (TLS) is located just 7 kilometers from the city center. The city is also served by the T
