

# 23rd European Symposium on Computer Aided Process Engineering: A Comprehensive Guide

The 23rd European Symposium on Computer Aided Process Engineering (ESCAPE 23) is an international conference that brings together researchers and practitioners from academia and industry to discuss the latest advances in computer aided process engineering (CAPE). The conference will be held in Valencia, Spain, from May 28-31, 2023.

## 23 European Symposium on Computer Aided Process Engineering: Techno-Economic Analysis of a Natural Gas Combined Cycle Power Plant with CO2 Capture (Computer Aided Chemical Engineering Book 32)

CAPE is a field that uses computer technology to help design, operate, and optimize chemical plants and other industrial processes. CAPE tools can be used to simulate the behavior of processes, design equipment, and optimize the operation of plants.

ESCAPE 23 will feature a wide range of topics, including:

\* Process modeling and simulation \* Process design and optimization \*  
Process control \* Energy efficiency \* Sustainability

The conference will also feature a number of keynote speakers, including:

\* Prof. Dr. Ir. Gerbrand Ceder (TU Delft, The Netherlands) \* Prof. Dr. Ir.  
Stefan Grossmann (Carnegie Mellon University, USA) \* Prof. Dr. Ir. Lorenz  
T. Biegler (Carnegie Mellon University, USA) \* Prof. Dr. Ir. John M.  
Prausnitz (University of California, Berkeley, USA)

## **Conference Program**

The ESCAPE 23 conference program will consist of a number of plenary sessions, parallel sessions, and workshops. The plenary sessions will feature keynote speakers and invited talks on the latest advances in CAPE. The parallel sessions will cover a wide range of topics, including process modeling and simulation, process design and optimization, process control, energy efficiency, and sustainability. The workshops will provide opportunities for participants to learn about new CAPE tools and techniques.

## **Registration**

Registration for ESCAPE 23 is now open. The early bird registration deadline is March 31, 2023. The regular registration deadline is April 30, 2023.

## **Accommodation**

A number of hotels have been reserved for ESCAPE 23 participants. The hotels are located near the conference venue and offer a range of prices and amenities.

## Travel

Valencia is easily accessible by air, rail, and road. The city is served by Valencia Airport (VLC), which is located about 8 kilometers from the city center. There are also regular train and bus services from Madrid and Barcelona.

## Social Events

ESCAPE 23 will feature a number of social events, including a welcome reception, a conference dinner, and a closing party. The social events will provide opportunities for participants to network with each other and learn more about the local culture.

The 23rd European Symposium on Computer Aided Process Engineering (ESCAPE 23) is an important event for researchers and practitioners in the field of CAPE. The conference will feature a wide range of topics, including process modeling and simulation, process design and optimization, process control, energy efficiency, and sustainability. The conference will also feature a number of keynote speakers and social events.
