In this comprehensive guide, you'll learn everything you need to know to get started with carving figure caricatures, from selecting the right wood to finishing your masterpiece. Along the way, you'll find step-by-step instructions, detailed illustrations, and invaluable tips from experienced carvers.

## The Basics of Carving Figure Caricatures

Before you start carving, it's important to understand the basics of the Ozark style. This style is characterized by its exaggerated features and humorous expressions, and it's important to keep these elements in mind when you're carving your own caricatures.

When selecting wood for your caricature, choose a hardwood that is relatively easy to carve, such as basswood or butternut. Once you have your wood, you can begin carving the basic shape of your figure. Start by outlining the major features of the face, such as the eyes, nose, and mouth. Once you have the basic shape, you can begin adding details, such as hair, clothing, and accessories.

When carving the features of your caricature, it's important to exaggerate them slightly. This will help to create the humorous effect that is characteristic of the Ozark style. For example, you might make the eyes larger than normal or give the nose a bulbous shape.

## **Finishing Your Caricature**

Once you have finished carving your caricature, you can apply a finish to protect the wood and enhance its appearance. There are a variety of finishes that you can use, such as oil, varnish, or polyurethane. Choose a finish that is appropriate for the type of wood you used and the desired look you want to achieve.

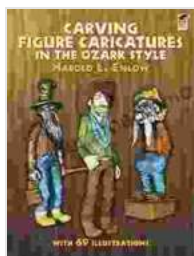

With a little practice, you'll be able to create your own unique figure caricatures in the Ozark style. This is a great way to add a touch of personality to your home or workshop, and it's also a fun and rewarding hobby.
