Step-by-Step Bracelet Instructions

Cobra Stitch Bracelet

19. Keep alternating left and right. After you have a few knots in place, squish them together by pulling the knots upward.

20. Continue this alternating pattern until you reach the end.

NOTE: If you look at the edge of your bracelet, you will notice the left and right pattern. In the picture above, the pattern was broken with two right loops. If this happens to you, undo the work and start from the last correct knot.

21. Keep squishing the knots together as you weave. The first picture above can fit another two knots. The bottom one is what your bracelet will look like when it cannot fit any more knots.

22. When you finish tying knots, cut each end of your paracord about 1/4 inch away from the bracelet.

23. Hold the ends near a flame until they melt. While still hot, squish them against the bracelet using the side of the lighter. Children, be sure to get adult approval before using a lighter.
