The International Symposium on Sustainability Science and Technology (ISETTA 2024) was a groundbreaking event that brought together leading experts from around the world to discuss the latest advancements in sustainability science and technology. The proceedings of ISETTA 2024 are now available, providing a comprehensive overview of the most cutting-edge research and innovations in this field.

The proceedings include over 100 papers covering a wide range of topics, including:

- Renewable energy
- Climate change
- Waste management

- Water conservation
- Green buildings
- Smart cities
- Circular economy

The proceedings are essential reading for anyone who wants to stay up-to-date on the latest developments in sustainability science and technology. They provide a valuable resource for researchers, policymakers, and practitioners alike.

Key Highlights of ISETTA 2024

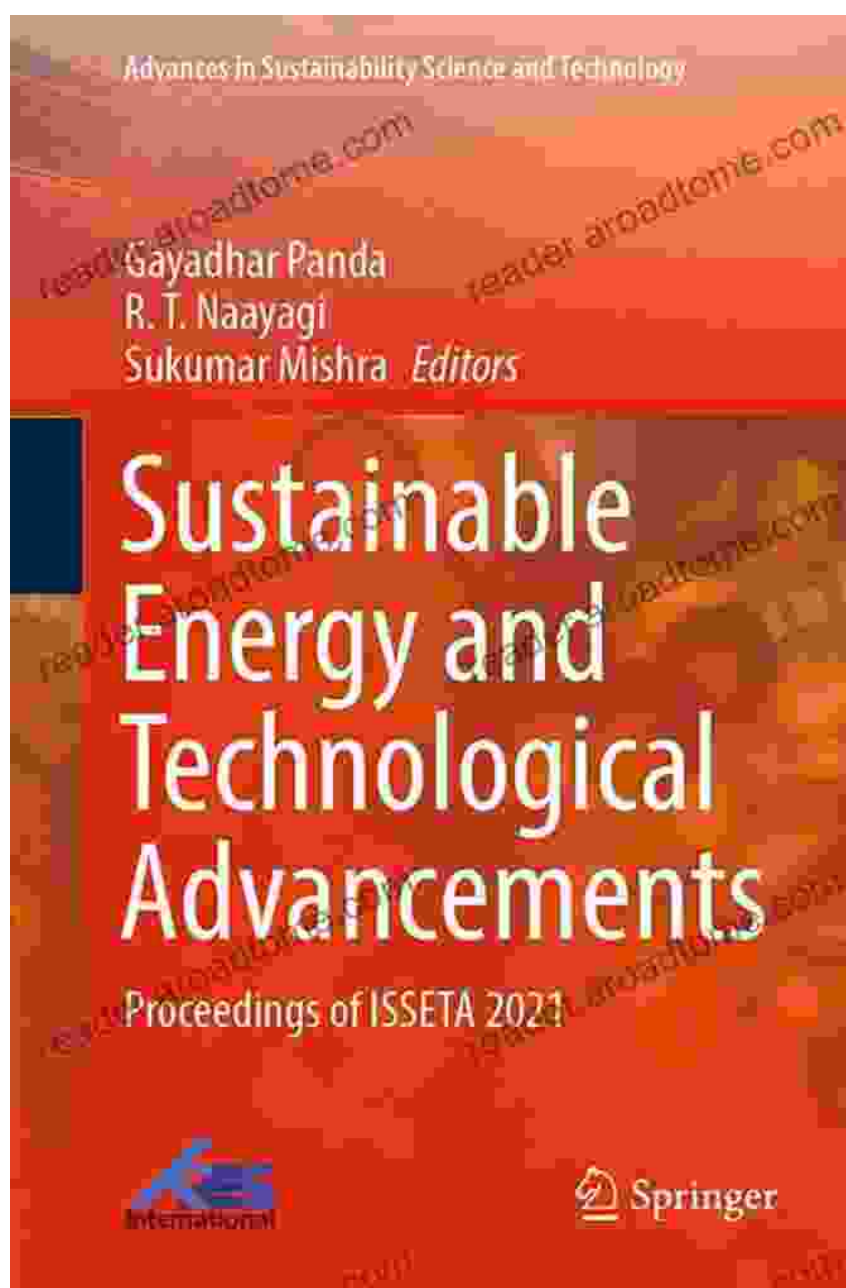

Some of the key highlights of ISETTA 2024 include:

- The keynote address by Dr. Jane Goodall, world-renowned primatologist and conservationist.
- The launch of the ISETTA 2024 Sustainability Science and Technology Declaration, which calls for urgent action to address the global sustainability crisis.
- The presentation of over 100 papers by leading experts from around the world.
- A series of workshops and panel discussions on the most pressing sustainability challenges.
- The announcement of the winners of the ISETTA 2024 Sustainability Science and Technology Awards.

How to Free Download the Proceedings of ISETTA 2024

The proceedings of ISETTA 2024 are available in both print and electronic formats. To Free Download your copy, please visit the ISETTA website at www.iseta2024.org.

The proceedings are an essential resource for anyone who wants to stay up-to-date on the latest developments in sustainability science and technology. Free Download your copy today and help us build a more sustainable future!
